

K-LOVE serves me as a resident of the local community by playing uplifting songs, words of encouragement and prayer teams that have prayed for me and my family over the past years.

Please do not displace K-LOVE. There are many of us who need this station to keep us grounded. They provide a public uplifting and have helped many through various crisis' such as depression, death of a loved one and many family issues.

Our community needs more of these positive influences, not less!
Thank you.
